DETAILED ACTION

1. This action is responsive to the following communications: amendment, filed November 16, 2007.
2. Claims 17-19, 21-24, 26-32, 51-60 are currently pending in the case, with claims 17, 51 and 56 being the independent claims.
3. It is noted that Applicant's amendment to the independent claims significantly changes the scope of the claimed invention when interpreted as a whole.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. **The claimed invention (as claimed in claims 17-19, 21-24, 26- 32) is directed to non-statutory subject matter.**

In regard to independent claim 17, claim 17 claims a system. Since there is nothing in claim 17 that directs Applicant's invention to include hardware, said claimed system can be interpreted as software per se (i.e. data structures, etc.), which is not tied to any of the technological arts. Accordingly, said claim is directed to non-statutory subject matter.

In regard to dependent claims 18-19, 21-24, 26-32, said claims do not recite limitations directing Applicant's invention to include hardware, therefore said claims are rejected for fully incorporating the deficiencies of their respective base claim.

Allowable Subject Matter

6. **Claims 51-60** are allowed.

Response to Arguments

7. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

It is noted that Applicant's amendment to the independent claims significantly changes the scope of the claimed invention when interpreted as a whole.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
